# Introduction

## **Introduction to the Skyline English Series – Primary Stage (Kuwait)**

### **About the Skyline English Series**

The Skyline English Series is a comprehensive and progressive curriculum specifically designed for primary school learners in the State of Kuwait. Grounded in pedagogical excellence and aligned with both international language acquisition standards and national curriculum requirements. The series empowers young learners to develop essential language skills that support academic achievement, personal growth and global awareness. Each level of the Skyline Series is thoughtfully structured to support students' linguistic, cognitive and emotional development through meaningful, age-appropriate and culturally relevant content.

### **Vision and Purpose**

The Skyline English Series envisions an educational environment where students are not only proficient in English but also equipped with the skills required for lifelong learning and responsible citizens. The series seeks to cultivate a love for language learning while fostering moral values, collaboration and respect for diversity. With a focus on clear learning outcomes and interactive methodologies, Skyline promotes learner autonomy, creativity, and engagement.

# Introduction

## Alignment with Kuwait Vision 2035

Skyline English directly supports the national goals of Kuwait Vision 2035, particularly within the pillar of Human Capital Development. The series contributes to creating a generation of knowledgeable, skilled, and globally competent learners who can actively participate in Kuwait's socio-economic transformation. By promoting bilingual communication, analytical thinking, and digital literacy, the Skyline Series helps foster the development of a modern, knowledge-based society. Lessons are designed to foster national pride while preparing students to engage constructively in an interconnected world.

## Integration of 21st Century Skills and Educational Values

The Skyline English Series incorporates key 21st-century learning indicators such as critical thinking, creativity, collaboration, communication and digital competence. The curriculum is also embedded with core educational values, including:

- Respect for others and cultural identity
- Integrity and ethical behavior
- Cooperation and teamwork
- Environmental and civic responsibility
- Perseverance and self-improvement

Each unit in the series is enriched with tasks that require active participation, problem-solving, reflection and real-life application of language skills.

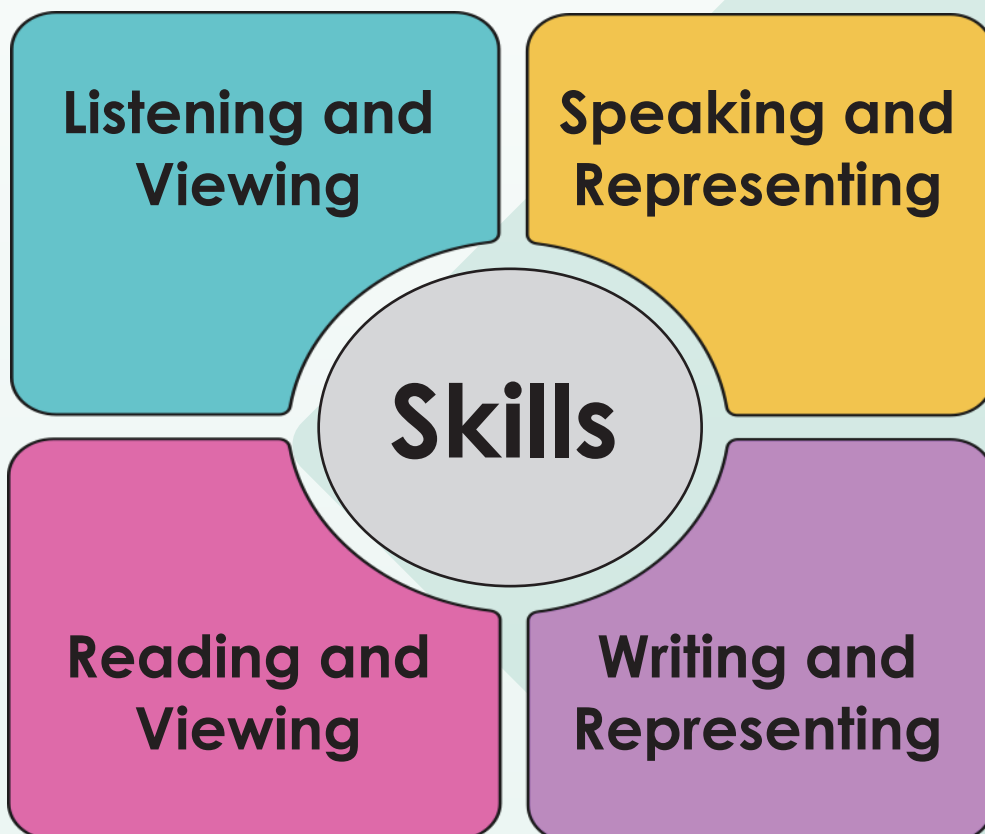

# Introduction

## A Curriculum for the Future

Skyline English serves as a bridge between moral values and forward-looking education. By supporting Kuwait's National Education Framework and embracing global benchmarks. The series ensures that students are prepared for the demands of the future while remaining rooted in their identity. Through its engaging content, structured progression and inclusive design, Skyline nurtures a confident, articulated, and responsible generation of English learners.

Before you read

What do people need to live on a planet?

Read the following passage and choose the correct answer from a, b, c or d

 **Earth**  HOME ABOUT CONTENT OTHERS

Earth is our home and one of the most amazing planets in the solar system. It is the only planet where people, animals, and plants can live safely. Earth has everything we need, air to breathe, water to drink, and suitable weather to grow food and trees. Earth is bigger than Mars but smaller than Jupiter. It is also the most colourful planet. From space, we can see its blue oceans, green forests, brown mountains, and white clouds moving gently across the sky. The Earth moves around the Sun once every year, and it spins around itself to make day and night. We must take care of our planet by saving water, planting trees, and keeping it clean. The Earth is our beautiful home, and it needs our care everyday.

#### Read the following story, then open your workbook to fill in the story map

After a school trip to the Scientific Centre, Hamad couldn't stop thinking about space. He tried a VR headset and saw rockets flying, colourful planets, and bright stars shining in the sky. When he got home, he ate his lunch, felt sleepy, and soon closed his eyes. Suddenly, Hamad found himself inside a big, bright spaceship.

An astronaut smiled at him and said, "Welcome, Hamad! I'm Neil Armstrong, the first man to walk on the Moon. Today, I will be your guide." Neil showed Hamad around the spaceship. "I will show you how astronauts live in space. We sleep in small bags, so we don't float away. We eat dry food that doesn't spill, and we move slowly because there is no gravity." he said.

Hamad tried to move, but his legs floated off the floor! He laughed as his pencil floated next to him. Neil smiled and said, "Without gravity, everything feels light even you!" Together, they looked out the window at the Earth below. It was round and blue. "Dream big." said Neil. "One day, you can explore the stars too." When Hamad woke up, he smiled and said, "One day, I will be an astronaut. My dream will come true."

# Song

## “Curious Minds Will Explore” song

In the centre, we gather to look and explore,  
A scientist shows us planets and more.

The Solar System is large and bright,  
Each planet spins gently in the quiet night.

We ask big questions, we think and try  
Which one is closest? What’s up in the sky?

With curiosity, we start to learn,  
And our imaginations begin to turn.

We will learn, we will explore,  
We will ask “Why?” and search for more.

The fastest rockets climb so high  
Together we dream, together we try.

We will believe in every new door  
That’s how we grow when we explore!

With a VR headset, we take a look,  
Gravity feels different like pictures in a book.

An astronaut shows how planets float,  
And how rockets travel faster than a boat!

We work together, we think with care,  
We move safely and help everywhere.

The biggest dreams begin with one small try  
We will keep learning as we reach the sky.

Why do we plant trees?

Read the following passage and choose the correct answer from a, b, c or d

Plants are important for life on Earth, so we must look after them and not cut down too many trees. Keeping our planet green helps everyone live in a healthy world. A plant has a life cycle with five stages. First, we plant the seed in the soil. **It** needs water, air, and warm sunlight to grow. Next, a small root grows down to take water from the soil, and a small stem begins to grow up to get sunlight. Then, green leaves grow to help the young plant make food from sunlight. After that, the plant gets stronger and beautiful flowers bloom. Finally, flowers turn into fruit or vegetables with seeds. This is how the life cycle of a plant restarts.

- The opposite of the underlined word "**young**" in line 7 is  
a. old                      b. strong                      c. warm                      d. important
- The underlined word "**It**" in line 4 refers to

# Song

## “Plant a Tree for Our Environment” song

Our environment is important,  
It's the place for you and me.  
We should take care of nature,  
By planting every tree.

Plant a tree, plant a tree,  
Make the world clean and free.  
We should look after every ground,  
We shouldn't cut the trees down!

When we water, when we care,  
New green leaves grow everywhere.  
Strong tall trees help us all,  
Giving shade so big and small.

Plant a tree, plant a tree,  
Make the world clean and free.  
We should look after every ground,  
We shouldn't cut the trees down!

#### Read the following story, then open your workbook to fill in the story map

Omar was a curious fourth-grade boy who loved visiting museums. One morning, he went with his class to the National Museum of Kuwait. As he walked through a quiet hall, he noticed a colourful VR headset on a small table. A sign beside it said: "Explore the History of the Kuwaiti Flag!". Omar put on the headset, and suddenly a bright virtual world appeared in front of him. First, he saw the flag from the early 1900s. It was simple and red.

The scene changed again, taking him to 1914. This time, the flag was red with only the word "Kuwait" written on it.

Next, Omar travelled to the 1940s. He saw two red flags with "Kuwait" in white letters. One was a triangle-shaped flag used for ships, and the other was a rectangular flag used for buildings.

Finally, the headset showed the 1961 flag, the same flag used today. It had green, white, and red stripes with a black shape on the left.

Omar learned the meanings of the colours:

- **Green** means the land and the hope of people.
- **White** shows peace and kindness.
- **Red** represents the brave and strength of Kuwaitis.
- **Black** reminds us of past battles.

When Omar took off the headset, he felt proud. He now understood that flags change as countries grow, and he felt proud to his country's history.

# Song

## “The History” song

We walk together, hand in hand,  
To learn about our lovely land.  
Old stories live in every place,  
We smile and look with happy face.

History calls us every day,  
In museums we learn and play.  
Mosques and castles, big and tall,  
We learn the past, we learn it all!

The Grand Mosque shines bright and wide,  
Visitors walk from side to side.  
At the museum, we stop and see  
Pictures, models, history!

History calls us every day,  
In museums we learn and play.  
Mosques and castles, big and tall,  
We learn the past, we learn it all!

From: Hamad@sk.com  
To: Hussain@oman.com

Hi Hussain,

Last week, our class started a new journey to learn about the amazing places in our planet. We read stories about explorers visiting wide jungles and caves to find new animals and plants. Some students plan to go on a safari trip to see lions, zebras, and giraffes. Others hope to visit snowy mountains to enjoy the cold weather and quiet views. Exploring helps us learn new things about nature, people, and different cultures around the world. It also teaches us to be brave and calm. Every place has something special to show us, and I hope we can keep discovering and learning together.

Yours,  
Hamad

attic, fold, message, path, treasure, secret, tightly, connect

Why do people use maps?

Read the following story, then open your workbook to fill in the story map

On a windy morning, Layla and Omar were helping their grandfather cleaning the attic. While moving an old wooden box, they found a folded map hidden under it. The map showed Spain, India, and Brazil connected by a red line. At the top of the map, a message says: "Follow the path to find the treasure of light."

Grandfather smiled when he saw it. He told them it was an old family map and they are going to know its secret when they grow up. Layla and Omar looked at each other with excited eyes. They are going to follow the path one day. They made their plan. First, they are going to travel to Spain to get the golden key. Then, they are going to go to India to open the secret door. Finally, they are going to visit Brazil to find the treasure of light. Grandfather nodded proudly and asked them to keep the map safe. Layla and Omar smiled as they held the map tightly. They knew their great adventure is going to begin in the future.

What do you think they are going to find?

# Song

## “Let’s Explore the World !” song

We’re going to Kenya, we’re going to find,  
Big elephants walking, gentle and kind.  
We’re going to France to see the Eiffel Tower.  
Shall we visit museums today?

We’re going to Brazil, the sunshine is bright.  
We’re going to explore from morning tonight.  
We’re going to Oman, mountains high and bright.  
Shall we watch the stars there every single night?

We’re going to India, colours everywhere.  
People, food, and stories fill the air.  
We’re going to travel, happy as can be.  
Shall we go together across land and sea?
