a. The first 'biros' became an instant success. Why?(the advantages of the ballpoint pen)

The ball point pen has many advantages such as the ink dried quickly ,it's stronger than the fountain pen.
and it works at high altitude .

How does the ball point pen work ?

It revolves in its
socket

It transfers ink into
the paper.

**The pen is the
tongue of the mind,
explain.**

It expresses our
ideas , it reflects our
personalities and it
conveys our feelings
