INTRODUCTION

English Pearls of Kuwait is a thoughtfully designed English-language coursebook series for intermediate-stage students in Kuwait (Grades 6–9). Developed through rigorous educational research and classroom practice, the series equips learners with effective communication skills in English while honouring Kuwait's cultural identity and values. At the same time, it introduces diverse global perspectives, enabling students to build intercultural competence and broaden their worldview.

Grounded in Kuwait's national curriculum standards and informed by the Common European Framework of Reference for Languages (CEFR), each unit promotes competence across listening, speaking, reading, and writing. The course progressively builds micro-skills, from recognising stress and intonation to mastering vocabulary, grammar and cohesive devices, ensuring a solid foundation for academic and real-life language use. Its differentiated, learner-centred approach addresses varied learning styles and guides every student towards personalised goals.

Aligned with Kuwait Vision 2035, the series nurtures critical thinking, creativity, empathy, and civic responsibility. It aims to develop confident, respectful, and globally aware learners capable of contributing meaningfully to society. It places explicit emphasis on 21st-century skills: collaboration, creativity, critical thinking, problem solving, and effective communication in digital and real-world contexts. These skills encourage reflection on core values: sustainability, equality and responsible citizenship.

Drawing on international best practice, the course integrates Cambridge English vocabulary guidelines and CEFR-appropriate content to strengthen both receptive and productive language skills.

As students journey through these pages, they will explore engaging themes, collaborate on tasks and gain the confidence to express themselves clearly and thoughtfully. We invite learners, educators and parents to discover these pearls of knowledge, where language learning becomes a path to personal and national growth.

The following are the general educational standards that the students are expected to partially achieve by the end of the Intermediate Education:

Apply listening skills to comprehend oral and audio texts for various purposes, utilising a range of strategies and resources in diverse contexts.

Better Sleep, Better School Q&A

Question:
How can I sleep better at night?

I always feel tired at school. I do my homework late and chat with my friends on my phone. How can I get more sleep?

Dr. Rashid Ahmad,
Sleep Specialist

You are not alone. Teenagers worldwide often do not get enough sleep. **Experts** from the World Health Organisation and the National Sleep Foundation agree that teenagers need about eight to ten hours of sleep every night, but most teens **actually** sleep much less. Busy schedules, homework, and spending time on electronic **devices** can make it hard to go to bed early. Many teens stay up late watching videos, **chatting** with friends, or using their phones. Doctors say that not getting enough sleep can **affect** a teenager's mood, **memory**, and health. In addition, tired teens may feel sad, **stressed**, or find it hard to remember what they have learned.

Good sleep habits help students do better in school, have more energy for sports and activities, and feel happier each day. In some countries, schools start later in the morning to help students get more sleep. Parents and teachers around the world are **encouraging** young people to build healthy sleep habits, such as turning off devices before bedtime and keeping a **regular** sleep schedule.

**Dr. Rashid Ahmad's
Top Tips:**

- ✓ Go to bed at the same time each night.
- ✓ Avoid screens before sleeping.
- ✓ Keep your bedroom quiet and dark.
- ✓ Don't drink caffeinated drinks in the evening.
- ✓ Take a relaxing shower.
- ✓ Read a book **instead of** using your phone.
